The following are sent via email and available on the FACTS Global Energy Website:

### **Weekly Fundamentals Update**

Covering key, fundamental, developments influencing the oil market during the coming week (issued every Friday).

### **Weekly Oil Market and Refining Update**

A brief review highlighting key developments in international crude oil and products prices and refining margins, with implications for current market drivers (issued every Tuesday).

### **Twice Monthly World Oil Market Report**

Analyzing and forecasting key drivers in crude/product markets, with particular focus on the next 3 months.

### **Quarterly Oil Market Report**

Analyzing and forecasting monthly global oil supply/demand and prices for the following three months with a quarterly outlook over the coming year.

### **Quarterly Oil Market Statistics**

A statistical appendix of global oil market data and charts with quarterly projections by region.

### **Quarterly Products Market Report**

Outlining the key regional projections of refining runs and stocks, refining margins, oil price relationships and implications for products trade 12-18 months ahead, with supporting data and charts.

### **Refinery Investment Quarterly Update**

The purpose of the report is to provide a more regular monitoring of developments in the refining sector with the aim, in particular, of picking up any indications of changing trends as soon as they occur and commenting on their significance.

### **Alerts**

Issued in response to, or anticipation of, events of significance in the oil market.
